

## 10% discount

We know it has been a tricky time so we are offering fellow Oxfordshire folks a 10% discount on all our boxes, subscriptions and sciency gadgets.

Use code **OXMAS21** in November and December

### You can order by:

- Visiting our website [www.curiosity-box.com](http://www.curiosity-box.com)
- Giving us a good old fashioned phone call on **01865546145**
- Popping in to our HQ at **1 Abbey Street, Eynsham, OX294TB**

**MERRY CHRISTMAS**  
FROM EVERYONE AT

The Curiosity Box

Scan the code for Father Christmas Facts; explained by science

Cut this part off and keep it... 

...it tells you how to create your star and has a discount code on the back so you can shop local for less

1. Cut along the **WHITE** outer edge. You will then have a star with flaps like this. 
2. Create all of the **DOTTED** lines. The first fold has been done to help you!
3. The long **BLUE** lines fold towards you and the short **RED** fold away from you, to create a 3D effect. We've included a few pictures of one that we have made!
4. Turn your star over. Glue the flaps, fold them over and stick them.

Scan the **QR code** or visit [www.curiosity-box.com](http://www.curiosity-box.com) to see a 'how to' video if you get stuck, or to download another one to make.
